LUCAS ENERGY, INC.
NOTES TO CONDENSED CONSOLIDATED FINANCIAL STATEMENTS
(Unaudited)

NOTE 1 - GENERAL

History of the Company. Incorporated in Nevada in December 2003 under the name Panorama Investments Corp., the Company changed its name to Lucas Energy, Inc. effective June 9, 2006.

The accompanying unaudited interim condensed consolidated financial statements of Lucas Energy, Inc., together with its subsidiary (collectively, "Lucas" or the "Company") have been prepared in accordance with accounting principles generally accepted in the United States and the rules of the Securities and Exchange Commission, and should be read in conjunction with the audited financial statements and notes thereto contained in Lucas's annual report filed with the SEC on Form 10-K for the year ended March 31, 2013. In the opinion of management, all adjustments, consisting of normal recurring adjustments, necessary for a fair presentation of financial position and the results of operations for the interim periods presented have been reflected herein. The results of operations for interim periods are not necessarily indicative of the results to be expected for the full year. Notes to the condensed consolidated financial statements which would substantially duplicate the disclosures contained in the audited financial statements for the most recent fiscal year 2013 as reported in the Form 10-K have been omitted.

The Company's fiscal year ends on the last day of March of the calendar year. The Company refers to the twelve-month periods ended March 31, 2014 and 2013 as its 2014 and 2013 fiscal years, respectively.

Certain reclassifications of prior year balances have been made to conform such amounts to current year classifications. These reclassifications have no impact on net income.

NOTE 2 – LIQUIDITY

At September 30, 2013, the Company's Total Current Assets of \$5.75 million exceeded its Total Current Liabilities of \$4.64 million, resulting in a working capital surplus of approximately \$1.10 million. At March 31, 2013, the Company's total current liabilities of \$6.5 million exceeded its total current assets of \$1.7 million, resulting in a working capital deficit of \$4.8 million. The increase in working capital of \$5.9 million during the six months ended September 30, 2013 is primarily related to the Company effectively accessing the capital markets in connection with the sale of both equity and debt during the six months ended September 30, 2013. On August 13, 2013, the Company secured a long-term Loan for \$7.5 million. A portion of the funds raised in connection with the Loan were used to repay the \$3.25 million in outstanding current Notes issued in April and May 2013 (as defined and described in Note 6). On September 6, 2013, the Company closed a registered direct offering of \$3,451,500 (approximately \$3.2 million net, after deducting commissions and other expenses) in shares of common stock to certain institutional investors. The Company used the funds raised in the offerings to pay down expenses related to drilling, lease operating, workover activities and for general corporate purposes, including general and administrative expenses and legal settlements.

The Company believes its undeveloped acreage and continued ability to access the capital markets in both equity and debt provides a sufficient means to conduct its current operations, meet its contractual obligations and undertake a forward outlook on future development of its current fields.

NOTE 3 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company has provided a discussion of significant accounting policies, estimates and judgments in its 2013 Annual Report. There have been no changes to the Company's significant accounting policies since March 31, 2013.

NOTE 4 – PROPERTY AND EQUIPMENT

Oil and Gas Properties

Lucas uses the full cost method of accounting for oil and gas producing activities. Costs to acquire mineral interests in oil and gas properties, to drill and equip exploratory wells used to find proved reserves, and to drill and equip development wells including directly related overhead costs and related asset retirement costs are capitalized. Properties not subject to amortization consist of acquisition, exploration and development costs, which are evaluated on a property-by-property basis. Amortization of these unproved property costs begins when the properties become proved or their values become impaired and the corresponding costs are added to the capitalized costs subject to amortization. Costs of oil and gas properties are amortized using the units of production method. Amortization expense calculated per equivalent physical unit of production amounted to \$37.53 per barrel of oil equivalent (“BOE”) for the three months ended September 30, 2013, and was \$40.93 per BOE for the three months ended September 30, 2012. Amortization expense calculated per equivalent physical unit of production amounted to \$36.46 per BOE for the six months ended September 30, 2013, and was \$40.93 per BOE for the six months ended September 30, 2012.

In applying the full cost method, Lucas performs an impairment test (ceiling test) at each reporting date, whereby the carrying value of property and equipment is compared to the “estimated present value,” of its proved reserves discounted at a 10-percent interest rate of future net revenues, based on current economic and operating conditions at the end of the period, plus the cost of properties not being amortized, plus the lower of cost or fair market value of unproved properties included in costs being amortized, less the income tax effects related to book and tax basis differences of the properties. If capitalized costs exceed this limit, the excess is charged as an impairment expense. As of September 30, 2013, no impairment of oil and gas properties was indicated.

All of Lucas's oil and gas properties are located in the United States. Below are the components of Lucas's oil and gas properties recorded at:

	September 30, 2013	March 31, 2013
Proved leasehold costs	\$ 11,248,986	\$ 10,002,828
Costs of wells and development	34,819,780	33,961,775
Capitalized asset retirement costs	745,197	745,197
Total oil and gas properties	46,813,963	44,709,800
Accumulated depreciation and depletion	(10,060,014)	(9,077,997)
Net capitalized costs	<u>\$ 36,753,949</u>	<u>\$ 35,631,803</u>

Other Property and Equipment

On March 21, 2013, Lucas entered into an agreement to sell its Gonzales County, Texas office building for \$325,000. A non-reimbursable down payment of \$32,500 was paid on June 26, 2013, resulting in the carrying amount of the building to be reduced by the down payment amount. On September 20, 2013, Lucas was paid an additional \$30,000 non-reimbursable payment and on November 14, 2013 the final payment of \$262,500 was made completing the sale. As of September 30, 2013, the building was included in Other Property and Equipment for \$262,500 (\$325,000 less the two non-reimbursable payments made during the reporting period totaling \$62,500).

NOTE 5 – ASSET RETIREMENT OBLIGATIONS

The following table presents the reconciliation of the beginning and ending aggregate carrying amounts of long-term legal obligations associated with the retirement of oil and gas property and equipment for the three-month period ended September 30, 2013. Lucas does not have short-term asset retirement obligations as of September 30, 2013.

Carrying amount at beginning of period - March 31, 2013	\$ 925,494
Liabilities settled	(52,072)
Accretion	43,968
Carrying amount at end of period - September 30, 2013	<u>\$ 917,390</u>

NOTE 6 – NOTE PAYABLE

Effective April 4, 2013, the Company entered into a Loan Agreement with various lenders (the “April 2013 Loan Agreement”) pursuant to which such lenders loaned the Company an aggregate of \$2,750,000 to be used for general working capital. The lenders included entities beneficially owned by our Chairman, Ken Daraie (which entity loaned us \$2,000,000), and Director, W. Andrew Krusen, Jr. (which entities loaned us \$250,000), as well as an unrelated third party which loaned the Company \$500,000.

Effective May 31, 2013, the Company entered into a Loan Agreement with various lenders (the “May 2013 Loan Agreement” and together with the April 2013 Loan Agreement, the “Loan Agreements”), pursuant to which such lenders loaned the Company an aggregate of \$500,000 to be used for general working capital and to pay amounts the Company owed to Nordic Oil USA I, LLLP (“Nordic”). The lenders were third parties, unaffiliated with the Company, provided that one lender who previously loaned the Company funds in connection with the April 2013 Loan Agreement provided the Company an additional \$300,000 loan in connection with the May 2013 Loan Agreement. The Loan Agreement included substantially similar terms as the April 2013 Loan Agreement and was approved by the prior lenders in the April 2013 Loan Agreement, who also waived their right to be repaid from the proceeds from the loans.

The loans provided pursuant to the Loan Agreements were documented by Promissory Notes (the “Notes”) which accrued interest at the rate of 14% per annum, with such interest payable monthly in arrears (beginning June 1, 2013 in connection with the April 2013 Loan Agreement and July 1, 2013 in connection with the May 2013 Loan Agreement) and were due and payable on October 4, 2013 in connection with the April 2013 Loan Agreement and April 4, 2014 in connection with the May 2013 Loan Agreement. The Notes could be prepaid at any time without penalty. In the event any amounts were not paid when due under the Notes and/or in the event any event of default occurred and was continuing under the Notes, the Notes accrued interest at the rate of 17% per annum. The Note holders were each paid their pro rata portion of a commitment fee (\$55,000 in connection with the April 2013 Loan Agreement and \$15,000 in connection with the May 2013 Loan Agreement) and were each granted their pro rata portion of warrants to purchase 325,000 shares of the Company’s common stock which were evidenced by Common Stock Purchase Warrants (the “Warrants”). The Warrants have an exercise price of \$1.50 per share and a term of five years from the grant date.

Effective on August 13, 2013, Lucas entered into a Letter Loan Agreement with Louise H. Rogers (the “Letter Loan”). In connection with the Letter Loan and a Promissory Note entered into in connection therewith, Ms. Rogers loaned the Company \$7.5 million (the “Loan”). The Loan accrues interest at the rate of 12% per annum (18% upon the occurrence of an event of default), can be prepaid by Lucas at any time without penalty after November 13, 2013 and is due and payable on August 13, 2015, provided that \$75,000 in interest only payments are due on the Loan during the first six months of the term (which have been escrowed by Lucas) and beginning on March 13, 2014, Lucas is required to make monthly amortization principal payments equivalent to the sum of fifty-percent of the Loan during months seven through twenty-four of the term. The \$450,000 escrow deposit for the first six months interest has been recorded as restricted cash within the balance sheet, with \$375,000 being recognized on the balance sheet as of September 30, 2013. Lucas is also required to make mandatory prepayments of the loan in the event the collateral securing the Loan does not meet certain thresholds and coverage ratios. The repayment of the Loan is secured by a security interest in substantially all of Lucas’s assets which was evidenced by a Security Agreement and a Mortgage, Deed of Trust, Assignment, Security Agreement, Financing Statement and Fixture Filing. Lucas agreed to pay a \$15,000 quarterly administrative fee in connection with the Loan and grant the administrator a warrant to purchase up to 279,851 shares of Lucas’s common stock at an exercise price of \$1.35 per share and a term continuing until the earlier of (a) August 13, 2018; and (b) three years after the payment in full of the Loan. A portion of the funds raised in connection with the Loan were used to repay the \$3.25 million in outstanding Notes issued in April and May 2013 as described above. The Company also capitalized approximately \$480,000 in deferred financing costs in relation to expenses incurred in the execution of the Letter Loan.

The Company accounts for the warrant valuations in accordance with ASC 470-20, Debt with Conversion and Other Options. Therefore, the Company records the fair value of warrants issued in connection with those instruments and amortizes the discount through non-cash interest expense using the effective interest method over the term of the debt. The fair value of the 275,000 April 2013 Warrants was recorded as a \$137,118 debt discount and the fair value of the 50,000 May 2013 Warrants was recorded as a \$27,383 debt discount. As the Notes have been fully repaid, the Company has fully amortized the total debt discount of \$164,501 for the Notes as of September 30, 2013. The fair value of the 279,851 Letter Loan warrants was recorded as a \$127,963 debt discount, of which, \$10,664 has been amortized as of September 30, 2013.

As of September 30, 2013, Lucas had paid \$114,194 in cash interest on the April 2013 Notes and \$14,972 in cash interest on the May 2013 Notes. These amounts were for total interest paid up to the Loan repayment date of August 16, 2013. Lucas also has fully recognized \$70,000 in amortization expenses in relation to deferred financing costs for the Notes. The Company also paid \$75,000 in cash interest and amortized approximately \$30,000 in deferred financing cost for the Letter Loan reducing the deferred financing cost asset base to approximately \$450,000.

On September 19, 2013, Lucas made a final \$125,000 note payment per a Settlement and Release Agreement with Nordic, pursuant to which the parties agreed to settle and terminate a prior Purchase and Sale Agreement. In total, Lucas paid \$1,125,000 to Nordic, assigned certain properties and completed certain fieldwork stipulated in the Settlement and Release Agreement.

NOTE 7 – STOCKHOLDERS' EQUITY

Preferred Stock

As of September 30, 2013, Lucas had 2,000 shares of Series A Convertible Preferred Stock issued and outstanding. Additionally, the conversion rate of the Series A Convertible Preferred Stock adjusts automatically in connection with and in proportion to any dividends payable by the Company in common stock.

During the six months ended September 30, 2013, warrants to purchase 200,000 shares of our common stock with an exercise price of \$2.00 per share expired unexercised. These warrants were granted in connection with the sale of units in the Company's unit offering in September 2012. As discussed above, the Company granted warrants to purchase 325,000 shares of our common stock with an exercise price of \$1.50 per share and a term of five years in conjunction with the issuance of the April 2013 and May 2013 Notes as well as warrants to purchase 279,851 shares of our common stock with an exercise price of \$1.35 per share and a term of five years in conjunction with the Letter Loan. Per ASC Topics 480-10-25 and 815-40, the warrants are indexed to the Company's stock and treated as an equity instrument since the exercise price and shares are known and fixed at the date of issuance, and no other clause in the agreement requires the warrants to be treated as a liability.

The following is a summary of the Company's outstanding warrants at September 30, 2013:

NOTE 8 – INCOME TAXES

The Company has estimated that its effective tax rate for U.S. purposes will be zero for the 2014 fiscal year and consequently, recorded no provision or benefit for income taxes for the three months ended September 30, 2013.

NOTE 9 – SHARE-BASED COMPENSATION

In accordance with the provisions of ASC Topic 718, Lucas measures the cost of employee services received in exchange for an award of equity instruments based on the grant-date fair value of the award.

Common Stock

During the six-month period ended September 30, 2013, Lucas awarded 73,918 shares of its common stock with an aggregate grant date fair value of \$120,636, which was recognized as stock compensation expense. The common stock share awards were valued based on the trading value of Lucas's common stock on the date of grant, according to the employment agreements with certain officers and other managerial personnel. Of the 73,918 shares of common stock awarded only 19,725 shares had been issued as of September 30, 2013. The remaining 54,193 shares had been awarded but not issued as of September 30, 2013; therefore, \$95,400 was accrued in common stock payable, representing the fair value of Lucas's common stock on the grant date.

Stock Options

Of the Company's outstanding options, 230,200 expired, were exercised, or forfeited during the six months ended September 30, 2013.

The following table sets forth stock option activity for the six-month periods ended September 30, 2013 and 2012:

	Six Months Ended September 30, 2013		Six Months Ended September 30, 2012	
	Number of Stock Options	Weighted Average Grant Price	Number of Stock Options	Weighted Average Grant Price
Outstanding at March 31	819,668	\$ 1.55	456,000	\$ 2.88
Granted	175,000	1.32	-	-
Expired/Cancelled	(230,200)	1.47	-	-
Outstanding at September 30	<u>764,468</u>	\$ 1.52	<u>456,000</u>	\$ 2.88

Lucas granted stock options to purchase shares of common stock during the six months ended September 30, 2013 to an officer as employee based compensation. Effective April 1, 2013, the officer was granted stock options to purchase 125,000 shares of common stock with a fair value of \$66,635 to be amortized and recognized as compensation expenses over the service period. The exercise price for the options equaled the closing price of the Company stock on March 28, 2013. All issuances were valued at fair value on the date of grant based on the market value of Lucas's common stock using the Black Scholes option pricing model. On September 30, 2013, the officer resigned, thereby canceling the options to purchase 125,000 shares of common stock, which had not yet vested. Of the options to purchase 125,000 shares of common stock granted to the officer, 75,000 were to vest on the one year anniversary of the grant date and the remaining 50,000 were to vest on the two year anniversary of the grant date.

During the six months ended September 30, 2013, 230,200 options were cancelled due to employee resignations.

Compensation expense related to stock options during the three-month and six-month periods ended September 30, 2013 were \$125,935 and \$252,240, respectively.

Options outstanding and exercisable at September 30, 2013 and September 30, 2012 had an intrinsic value of \$19,500 and \$48,640, respectively. The intrinsic value is based upon the difference between the market price of Lucas's common stock on the date of exercise and the grant price of the stock options.

The following tabulation summarizes the remaining terms of the options outstanding:

Exercise Price (\$)	Remaining Life (Yrs.)	Options Outstanding	Options Exercisable
1.15	1.20	216,668	166,676
2.07	7.00	72,000	72,000
1.63	4.10	100,800	-
1.74	4.10	150,000	50,000
1.61	4.30	50,000	-
1.58	4.40	125,000	75,000
1.28	1.75	50,000	8,334
	Total	<u>764,468</u>	<u>372,010</u>

As of September 30, 2013, total unrecognized stock-based compensation expense related to all non-vested stock options was \$281,214, which is being recognized over a weighted average period of approximately 2.0 years.

In prior periods, the shareholders of the Company approved the Company's 2012 and 2010 Stock Incentive Plans (the Plans). The Plans are intended to secure for the Company the benefits arising from ownership of the Company's common stock by the employees, officers, directors and consultants of the Company, all of whom are and will be responsible for the Company's future growth. The Plans provide an opportunity for any employee, officer, director or consultant of the Company to receive incentive stock options (to eligible employees only), nonqualified stock options, restricted stock, stock awards and shares in performance of services. There were 781,763 shares available for issuance under the Plans as of September 30, 2013.

NOTE 10 – COMMITMENTS AND CONTINGENCIES

Legal Proceedings. From time to time, we may become party to litigation or other legal proceedings that we consider to be a part of the ordinary course of our business. We are not currently involved in any legal proceedings that we believe could reasonably be expected to have a material adverse effect on our business, prospects, financial condition or results of operations, other than the below. We may become involved in material legal proceedings in the future.

On October 13, 2011, Lucas entered into a purchase and sale agreement with Nordic Oil USA I, LLLP ("Nordic"), whereby effective July 1, 2011, Lucas purchased all of Nordic's right, title and interest in certain oil, gas and mineral leases located in Gonzales, Karnes and Wilson Counties, Texas. The transaction officially closed on November 18, 2011. Lucas agreed to pay Nordic \$22 million, payable in the form of a senior secured promissory note (with recourse only to the properties acquired), which accrued interest at the rate of 6% per annum (the "Note"), the payment of which was secured by a Deed of Trust, Security Agreement, Financing Statement and Assignment of Production on the property acquired (the "Deed of Trust"). Lucas failed to pay the note when it was due on November 17, 2012, and the parties were unable to come to terms on a settlement of the debt. Subsequently in December 2012, Nordic filed a lawsuit against Lucas pursuant to which Nordic made claims for the payment of damages in connection with liens attached to the property, the proceeds from alleged wrongful assignments of the property acquired in the transaction, pre-and-post judgment interest, a foreclosure and sale of the property, plus attorney's fees in the amount of 10% of the principal and interest then owing on the note (as allegedly allowed pursuant to the terms of the Note), and sought damages for breach of contract and attorney's fees. On March 29, 2013, and effective March 31, 2013 (the "Effective Date"), Lucas entered into a Settlement and Release Agreement with Nordic (the "Settlement Agreement"), pursuant to which the parties agreed to settle and terminate the purchase and sale agreement, Lucas agreed to pay \$1,125,000 to Nordic (which has been paid to date), assigned certain properties and completed certain fieldwork stipulated in the Settlement and Release Agreement. Additionally, the parties agreed to mutually release each other and each other's affiliates and assigns from all claims, causes of actions, damages and liabilities relating to any events which occurred prior to the effective date, whether as a result of the purchase of the properties, the note or otherwise, and to further indemnify each other from any claims associated therewith. On September 19, 2013, Lucas made the final \$125,000 payment per the Settlement Agreement. On November 13, 2013, Nordic filed a Notice of Dismissal With Prejudice dismissing all of Nordic's claims against Lucas.

On October 5, 2012, Knight Capital Americas LLC (as successor in interest to Knight Capital America, L.P. ("Knight")), filed suit against the Company in the Supreme Court of the State of New York, County of New York (Index No. 157012/2012). The Company previously engaged Knight as a broker/dealer in connection with a proposed fund raise. The suit alleges causes of actions for breach of contract, unjust enrichment, breach of implied covenants, tortious interference and seeks declaratory relief in connection with the Company allegedly failing to pay Knight fees in connection with its right of first refusal to provide broker/dealer services in connection with a subsequently completed fund raise undertaken by the Company. On September 18, 2013, Lucas entered into a Settlement and Release Agreement with Knight, pursuant to which the parties agreed to settle the litigation, and Lucas agreed to pay Knight an aggregate of \$220,000 as follows:

- ? \$120,000 on or before the later of September 16, 2013 or two days after the Settlement and Release Agreement was executed by the parties (which has been paid to date);
- ? \$33,333 on or before October 15, 2013 (which has been paid to date);
- ? \$33,333 on or before November 15, 2013; and
- ? \$33,333 on or before December 15, 2013,

provided that if Lucas fails to pay any amounts when due, Knight is able to file an agreed judgment with the court stipulating that Lucas agrees that the amount owed pursuant to the schedule above is immediately due and payable.

Additionally, the parties agreed to mutually release each other and each other's affiliates and assigns from all claims, causes of actions, damages and liabilities relating to any events which occurred prior to the effective date, whether as a result of the purchase of the properties, the note or otherwise, and to further indemnify each other from any claims associated therewith. Pursuant to the Settlement and Release Agreement, Knight will dismiss the lawsuit with prejudice after the final payment from Lucas is made.

On April 8, 2013, the Company entered into a Settlement Agreement with Seidler Oil & Gas, L.P. ("Seidler") on a lawsuit claiming a refund on previous investments with Lucas. The Company settled the outstanding balance and paid Seidler \$1.3 million plus legal fees. Seidler released the Company, its current and past officers, directors and agents from associated claims and Seidler agreed to dismiss the previously filed lawsuit with prejudice. In addition, certain private investors also agreed to release the Company, Seidler, and their respective past and present affiliates from any and all claims.

NOTE 11 – POSTRETIREMENT BENEFITS

Lucas maintains a matched defined contribution savings plan for its employees. During the three-month and six-month periods ended September 30, 2013, Lucas's total costs recognized for the savings plan were \$5,178 and \$14,956, respectively. During the three-month and six-month periods ended September 30, 2012, Lucas's total costs recognized for the savings plan were \$9,560 and \$18,141, respectively.

Overview

Lucas Energy, Inc., a Nevada corporation, is an independent oil and natural gas company based in Houston, Texas (herein the “Company”, “Lucas”, “Lucas Energy” or “we”). We are engaged in the acquisition and development of crude oil and natural gas from various known productive geological formations, including the Austin Chalk, Eagle Ford and Buda formations, primarily in Gonzales, Wilson and Karnes counties south of the city of San Antonio; and the Eaglebine, Buda, and Glen Rose formations in Leon and Madison counties north of the city of Houston, Texas. Incorporated in Nevada in December 2003 under the name Panorama Investments Corp., the Company changed its name to Lucas Energy, Inc. effective June 9, 2006. Our goal is to acquire, develop, and produce crude oil and natural gas from areas located in, or near, established oil fields that can provide long-term growth and sustainability for the Company.

The Company's strategy is to increase shareholder value by developing its significant acreage positions in the Eagle Ford, Austin Chalk, Eaglebine, Buda and Glen Rose oil bearing formations through a committed development program, effective management and efficiency of its current operations, being opportunistic in industry cycles and trends, and building a strong balance sheet. Below are key points of our strategy:

- **Development of current asset base.** The Austin Chalk has contributed to most of our production in the past year, including over 90% of our producing wells. We are planning to develop and execute a drilling program in the second half of 2013 (our 2014 fiscal year), which include the Austin Chalk, Buda/Glen Rose, and the Eagle Ford areas. The magnitude of the opportunity and associated drilling costs will require external sources of capital. We expect to utilize some combination of debt and equity in conjunction with operating cash flow to fund this development. Dependent upon varying factors such as joint ownership, size of lease and other asset specific conditions, the Company may also utilize joint interest participation partners or other forms of partnering.
- **Ongoing fieldwide evaluation and optimization.** Our strategy is to be cost efficient and manage our operations with sound judgment and excellence. We pride ourselves with considering technological advancements to enhance our operations. This process should enhance production results and also lead to lower operating costs on a per barrel basis.
- **Maintain a strong balance sheet.** Through its extensive asset base, the Company is focused to leverage its current balance sheet and maximize value with an appropriate and flexible capital structure program.
- **Execution of our business plan.** We will conduct the affairs of the Company with the objective of maintaining positive cash flow, managing all essentials of our cost structure, drilling and operating programs, and our corporate general and administrative costs. We have made great strides with this approach by recently eliminating overburdened operating costs and legal impediments to move forward in becoming a contributing player in our core areas.

Our website address is <http://www.lucasenergy.com>. Our fiscal year ends on the last day of March of each year. The information on, or that may be accessed through, our website is not incorporated by reference into this report and should not be considered a part of this report. We refer to the twelve-month periods ended March 31, 2014 and March 31, 2013 as our 2014 Fiscal Year and 2013 Fiscal Year, respectively.

At September 30, 2013, the Company had leasehold interests (working interests) in approximately 17,800 gross acres. The Company's total net developed and undeveloped acreage as measured from the surface to the base of the Austin Chalk formation was approximately 14,300 net acres. In deeper formations, the Company has approximately 3,700 net acres in the Eagle Ford oil window and 1,632 net acres in the Eaglebine, Buda and Glen Rose oil bearing formations.

At the end of September 2013, Lucas was producing an average of approximately 147 net barrels of oil equivalent per day (BOEPD) from 59 active well bores, of which 18 wells accounted for more than 80% of our production. The ratio between the gross and net production varies due to varied working interests and net revenue interests in each well. An affiliate of Marathon Oil Corporation operates the only two Eagle Ford horizontal wells in our Gonzales leases, of which we have a 15% working interest on each well. Our production sales totaled 12,032 and 26,820 barrels of oil equivalent, net to our interest, for the three and six months ended September 30, 2013, respectively.

At March 31, 2013, Lucas Energy's total estimated net proved reserves were 5.6 million barrels of oil equivalent (BOE), of which 5.1 million barrels (BBLs) were crude oil reserves, and 2.6 billion cubic feet (BCF) were natural gas reserves (see Supplemental Information to Consolidated Financial Statements). As of September 30, 2013, Lucas employed 11 full-time employees. We also utilized over six contractors on an "as-needed" basis to carry out various functions of the Company, including but not limited to field operations, land administration, corporate activity and information technology maintenance.

Industry Segments

Lucas Energy's operations are all crude oil and natural gas exploration and production related.

Operations and Oil and Gas Properties

We operate in known productive areas in order to decrease geological risk. Our holdings are located in an increased area of current industry activity in Gonzales, Wilson, Karnes, Atascosa, Leon and Madison counties in Texas. We concentrate on three vertically adjoining formations in Gonzales, Wilson and Karnes counties: the Austin Chalk, Eagle Ford and Buda formations, listed in the order of increasing depth measuring from land surface. The recent development of the Eagle Ford as a high potential producing zone has heightened industry interest and success. Lucas Energy's acreage position is in the oil window of the Eagle Ford trend and has amassed over 12,000 gross acres in the Gonzales and Wilson County, Texas area.

Austin Chalk

The Company's original activity started in Gonzales County by acquiring existing shut-in and stripper wells and improving production from those wells. Most of the wells had produced from the Austin Chalk. The Austin Chalk is a dense limestone, varying in thickness along its trend from approximately 200 feet to more than 800 feet. It produces by virtue of localized fractures within the formation.

Eagle Ford

On Lucas's leases, the Eagle Ford is a porous limestone with organic shale matter. The Eagle Ford formation directly underlies the Austin Chalk formation and is believed to be the primary source of oil and gas produced from the Austin Chalk. Reservoir thickness in the area of the Company's leases varies from approximately 60 feet to 80 feet.

Buda

The Buda limestone underlies the Eagle Ford formation separated by a 10 foot to 20 foot inorganic shale barrier. Its thickness varies from approximately 100 feet to more than 150 feet in this area. The Buda produces from natural fractures and matrix porosity and is prospective across this whole area. There are a number of Buda wells with cumulative production of more than 100,000 barrels of oil.

Eaglebine

The Eaglebine is so named because the Eagle Ford formation overlies the Woodbine formation. This is a continuation of the Eagle Ford trend that is productive from south Texas to the northeast of Houston, Texas. The Woodbine formation is best known as the prolific reservoir in the famous East Texas Oil Field. There has been increased interest and activity in the Eaglebine formation in the Leon, Houston, and Madison county areas. There is established production from horizontal and vertical wells to the east and south of Lucas's holdings and numerous permits for horizontal wells have been filed for additional exploratory and development drilling.

Our Strengths

We believe our strengths will help us successfully execute our business strategies:

We benefit from the increasing value, attention and activity in the Eagle Ford. We benefit from the increasing number of wells drilled and the corresponding data available from public and governmental sources surrounding our acreage. This activity and data has defined the geographic extent of the Austin Chalk, Eagle Ford, and Buda formations, which we believe will assist us in evaluating future leasehold acquisitions and development operations. In addition, leading operators have developed drilling and completion technologies that have significantly reduced production risk and decreased per unit drilling and completion costs.

Our size, industry knowledge, and contacts allow us to pursue a broader range of acquisition opportunities. Our size provides us with the opportunity to acquire smaller acreage blocks that may be less attractive to larger operators in the area. We believe that our acquisition of these smaller blocks will have a meaningful impact on our overall acreage position.

Experienced management team with proven acquisition, operating and financing capabilities. We benefit from having an experienced management team with proven acquisition, operating and financing capabilities. Mr. Anthony Schnur, our Chief Executive Officer, has over twenty years of extensive oil and gas and financial management experience. He has developed strategic business plans, raised debt and equity capital, and provided asset management, cash flow forecasts, transaction modeling and development planning for both start-ups and special situations. On three separate occasions Mr. Schnur has been asked to lead work-out/turn-around initiatives in the E&P space. Further, the Company has attracted new talent in its operations, reservoir analysis, land and accounting functions and it believes it has brought together a professional and dedicated team to deliver value to Lucas shareholders.

RESULTS OF OPERATIONS

The following discussion and analysis of the results of operations for the three-month and six-month periods ended September 30, 2013 and 2012 should be read in conjunction with the condensed consolidated financial statements of Lucas Energy and notes thereto included in this Quarterly Report on Form 10-Q. As used below, the abbreviations "Bbls" stands for barrels, "NGL" stands for natural gas liquids, "Mcf" for thousand cubic feet and "Boe" for barrels of oil equivalent on the basis of six Mcf per barrel. The majority of the numbers presented below are rounded numbers and should be considered as approximate.

Three Months Ended September 30, 2013 vs. Three Months Ended September 30, 2012

We reported a net loss for the three months ended September 30, 2013 of \$1.6 million, or \$0.06 per share. For the same period a year ago, we reported a net loss of \$1.5 million, or \$0.06 per share. Our net loss remained constant primarily due to a \$1.5 million decrease in revenues offset by a \$1.5 million decrease in expenses.

The following table sets forth the operating results and production data for the three-month periods ended September 30, 2013 and 2012.

	Three Months Ended September 30,			
	2013	2012	Increase (Decrease)	% Increase (Decrease)

Total (Boe per day)	131	307	(176)	(57%)
Average Sale Price:

Natural Gas (\$/Mcf)	\$ -	\$ 7.01	\$ (7.01)	(100%)

Net Operating Revenues:

Crude Oil	\$ 1,227,492	\$ 2,702,465	\$ (1,474,973)	(55%)
Natural Gas & NGL	-	30,344	(30,344)	(100%)
Total Revenues	<u>\$ 1,227,492</u>	<u>\$ 2,732,809</u>	<u>\$ (1,505,317)</u>	(55%)

Oil and Gas Revenues

Total crude oil and natural gas revenues for the three months ended September 30, 2013 decreased \$1.5 million, or 55%, to \$1.2 million from \$2.7 million for the same period a year ago due primarily to an unfavorable crude oil volume variance of \$1.5 million. There was a minimal favorable price variance, which had no significant impact. The production decline is primarily related to the Company having a reduced property base due to the sale of the Baker DeForrest property in October 2012 and the assignment of certain Company properties to Nordic per the Nordic Settlement Agreement just prior to the previous fiscal year end (see Note 10 – Commitments and Contingencies in the attached financial statements). Additionally, in the prior reporting period, the Company had existing drilling programs with higher front-end production when compared to the current period.

Operating and Other Expenses

The following table summarizes our production costs and operating expenses for the periods indicated:

Lease Operating Expenses

Lease operating expenses decreased \$0.4 million for the current quarter as compared to the prior year period principally due to less production and a decline in direct lease operating expenses from the Company's expanding effort to improve operating efficiencies.

Depreciation, Depletion, Amortization and Accretion (DD&A)

DD&A decreased \$0.7 million primarily due to a decrease in production of 15,893 Boe compared to the previous period. The unit DD&A rate per Boe also decreased from \$40.93 to \$37.55 for the three months ended September 30, 2013 compared to the three months ended September 30, 2012.

General and Administrative Expenses

G&A decreased by \$0.3 million primarily due to the Company's overall focus in improving the efficiency of the daily operating activities within the Company as well as less consulting, contracting and outsourcing expenses.

Interest Expense

Interest expense for the three months ended September 30, 2013 consisted of interest payments of approximately \$0.3 million made in relation to the Notes issued in April 2013 and May 2013 and the Letter Loan entered into in August 2013 (described below under "Liquidity and Capital Resources" – "Financing"). When compared to the same period a year ago, which primarily related to incurred interest expense of approximately \$0.3 million on the Nordic note, there is no significant change.

Other Expense (Income), Net

Other Expense (Income) for the three months ended September 30, 2013, primarily consisted of \$43,000 in financing fees offset by \$57,000 in discounts from accounts payable settlements.

Six Months Ended September 30, 2013 vs. Six Months Ended September 30, 2012

We reported a net loss for the six months ended September 30, 2013 of \$2.5 million, or \$0.09 per share. For the same period a year ago, we reported a net loss of \$3.4 million, or \$0.15 per share. Although our total revenues decreased by \$1.7 million, our net loss decreased by \$0.9 million primarily due to a decrease in total operating expenses of \$2.5 million with an additional decrease in other expenses of \$0.2 million.

The following table sets forth the operating results and production data for the six-month periods ended September 30, 2013 and 2012.

Oil and Gas Revenues

Total crude oil and natural gas revenues for the six months ended September 30, 2013 decreased \$1.7 million, or 39%, to \$2.7 million from \$4.5 million for the same period a year ago due primarily to an unfavorable crude oil volume variance of \$1.9 million offset by a favorable crude oil price variance of \$0.2 million. The production decline is primarily related to the Company having a reduced property base due to the sale of the Baker DeForrest property in October 2012 and the assignment of certain Company properties to Nordic per the Nordic Settlement Agreement just prior to the previous fiscal year end (see Note 10 – Commitments and Contingencies in the attached financial statements). Additionally, in the prior reporting period, the Company had existing drilling programs with higher front-end production when compared to the current period.

Lease Operating Expenses

Lease operating expenses decreased \$0.9 million for the six months ended September 30, 2013 as compared to the prior year period principally due to less production and a decline in direct lease operating and workover expenses from the Company's expanding effort to improve operating efficiencies.

Depreciation, Depletion, Amortization and Accretion (DD&A)

DD&A decreased \$0.9 million primarily due to a decrease in production of 20,426 Boe compared to the previous period. The unit DD&A rate per Boe also decreased from \$40.93 to \$36.47 for the six months ended September 30, 2013 compared to the six months ended September 30, 2012.

General and Administrative Expenses

G&A decreased by \$0.6 million primarily due to the Company's overall focus in improving the efficiency of the daily operating activities within the Company as well as less consulting, contracting and outsourcing expenses.

Interest Expense

Interest expense for the six months ended September 30, 2013 consisted of interest payments of approximately \$0.6 million made in relation to the Notes issued in April 2013 and May 2013 and the Letter Loan entered into in August 2013 (described below under "Liquidity and Capital Resources" – "Financing"). When compared to the same period a year ago, which primarily related to incurred interest expense of approximately \$0.7 million on the Nordic note, there is a \$0.1 million decrease.

Other Expense (Income), Net

Other Expense (Income) for the six months ended September 30, 2013, primarily consisted of approximately \$73,000 in financing fees offset by approximately \$101,000 in discounts from accounts payable settlements and approximately \$1,500 in office space rental income from our Gonzales County office.

LIQUIDITY AND CAPITAL RESOURCES

The primary sources of cash for Lucas during the six months ended September 30, 2013 were funds generated from sales of crude oil and borrowings and funds raised through the sale of common stock. The primary uses of cash were funds used in operations, repayment of other borrowings and legal settlements.

Working Capital

At September 30, 2013, the Company's Total Current Assets of \$5.75 million exceeded its Total Current Liabilities of \$4.64 million, resulting in a working capital surplus of \$1.10 million. At March 31, 2013, the Company's total current liabilities of \$6.5 million exceeded its total current assets of \$1.7 million, resulting in a working capital deficit of \$4.8 million. The increase in working capital of \$5.9 million is primarily related the Company effectively accessing the capital markets in connection with the sale of both equity and debt during the six months ended September 30, 2013. On August 13, 2013, the Company secured a long-term Loan for \$7.5 million (as described in greater detail below). A portion of the funds raised in connection with the Loan were used to repay the \$3.25 million in outstanding current Notes issued in April and May 2013 (as described below). On September 6, 2013, the Company closed a registered direct offering of \$3,451,500 (approximately \$3.2 million net, after deducting commissions and other expenses) in shares of common stock to certain institutional investors. The Company used the funds raised in the offerings to pay down expenses related to drilling, lease operating, workover activities and for general corporate purposes, including general and administrative expenses and legal settlements.

The Company believes its undeveloped acreage and continued ability to access the capital markets in both equity and debt provides a sufficient means to conduct its current operations, meet its contractual obligations and undertake a forward outlook on future development of its current fields.

Cash Flows

	Six Months Ended September 30,	
	2013	2012
Cash flows used in operating activities	(2,317,160)	(4,265,141)
Cash flows used in investing activities	(2,981,135)	(3,165,399)
Cash flows provided by financing activities	9,027,735	7,073,045
Net increase (decrease) in cash and cash equivalents	3,729,440	(357,495)

Net cash used in operating activities was approximately \$2.3 million for the six months ended September 30, 2013 as compared to \$4.3 million for the same period a year ago. The decrease in net cash used in operating activities of \$2.0 million was due primarily to a \$0.9 million reduction of net loss and the paying down of all the outstanding advances to working interest owners via the settlement of the Seidler lawsuit (see Note 10 – Commitments and Contingencies in the attached financial statements).

Net cash used in investing activities was approximately \$3.0 million for the six months ended September 30, 2013 as compared to net cash used in investing activities of \$3.2 million for the same period a year ago. The decrease in net cash used in investing activities was primarily due to a \$0.2 million reduction of additions to oil and gas properties.

The increase in net cash provided by financing activities of approximately \$1.9 million for the six months ended September 30, 2013, from \$7.1 million for the six months ended September 30, 2012, to \$9.0 million for the six months ended September 30, 2012, was primarily due to approximately \$2.0 million of additional proceeds, net of repayments, due to loans and the sale of equity when compared to equity sales and loan repayment amounts from the same period a year ago.

Financing

Effective April 4, 2013, the Company entered into a Loan Agreement with various lenders (the “April 2013 Loan Agreement”) pursuant to which such lenders loaned the Company an aggregate of \$2,750,000 to be used for general working capital. The lenders included entities beneficially owned by our Chairman, Ken Daraie (which entity loaned us \$2,000,000), and Director, W. Andrew Krusen, Jr. (which entities loaned us \$250,000), as well as an unrelated third party which loaned the Company \$500,000.

Effective May 31, 2013, the Company entered into a Loan Agreement with various lenders (the “May 2013 Loan Agreement” and together with the April 2013 Loan Agreement, the “Loan Agreements”), pursuant to which such lenders loaned the Company an aggregate of \$500,000 to be used for general working capital and to pay amounts the Company owed to Nordic Oil USA I, LLLP (“Nordic”). The lenders were third parties, unaffiliated with the Company, provided that one lender who previously loaned the Company funds in connection with the April 2013 Loan Agreement provided the Company an additional \$300,000 loan in connection with the May 2013 Loan Agreement. The May 2013 Loan Agreement included substantially similar terms as the April 2013 Loan Agreement and was approved by the prior lenders, who also waived their right to be repaid from the proceeds from the loans.

The loans provided pursuant to the Loan Agreements were documented by Promissory Notes (the “Notes”) which accrued interest at the rate of 14% per annum, with such interest payable monthly in arrears (beginning June 1, 2013 in connection with the April 2013 Loan Agreement and July 1, 2013 in connection with the May 2013 Loan Agreement) and were due and payable on October 4, 2013 in connection with the April 2013 Loan Agreement and April 4, 2014 in connection with the May 2013 Loan Agreement. The Notes could be prepaid at any time without penalty. In the event any amounts were not paid when due under the Notes and/or in the event any event of default occurred and was continuing under the Notes, the Notes accrued interest at the rate of 17% per annum. The Note holders were each paid their pro rata portion of a commitment fee (\$55,000 in connection with the April 2013 Loan Agreement and \$15,000 in connection with the May 2013 Loan Agreement) and were each granted their pro rata portion of warrants to purchase 325,000 shares of the Company’s common stock which were evidenced by Common Stock Purchase Warrants (the “Warrants”).

On July 17, 2013, Meson Capital Partners LP (which is indirectly beneficially owned by one of our Directors, Ryan J. Morris), purchased 185,185 restricted shares of our common stock in a private transaction for consideration of \$250,000 or \$1.35 per share (\$0.01 above the closing sales price of our common stock on July 17, 2013).

Effective on August 13, 2013, Lucas entered into a Letter Loan Agreement with Louise H. Rogers (the “Letter Loan”). In connection with the Letter Loan and a Promissory Note entered into in connection therewith, Ms. Rogers loaned the Company \$7.5 million (the “Loan”). The Loan accrues interest at the rate of 12% per annum (18% upon the occurrence of an event of default), can be prepaid by Lucas at any time without penalty after November 13, 2013 and is due and payable on August 13, 2015, provided that \$75,000 in interest only payments are due on the Loan during the first six months of the term (which have been escrowed by Lucas) and beginning on March 13, 2014, Lucas is required to make monthly amortization principal payments of equivalent to the sum of fifty-percent of the Loan during months seven through twenty-four of the term. The \$450,000 escrow deposit for the first six months interest has been recorded as restricted cash within the balance sheet, with \$375,000 being recognized on the balance sheet as of September 30, 2013. Lucas is also required to make mandatory prepayments of the loan in the event the collateral securing the Loan does not meet certain thresholds and coverage ratios. The repayment of the Loan is secured by a security interest in substantially all of Lucas’s assets which was evidenced by a Security Agreement and a Mortgage, Deed of Trust, Assignment, Security Agreement, Financing Statement and Fixture Filing. Lucas agreed to pay a \$15,000 quarterly administrative fee in connection with the Loan and grant the administrator a warrant to purchase up to 279,851 shares of Lucas’s common stock at an exercise price of \$1.35 per share and a term continuing until the earlier of (a) August 13, 2018; and (b) three years after the payment in full of the Loan. A portion of the funds raised in connection with the Loan were used to repay the \$3.25 million in outstanding Notes issued in April and May 2013 as described above.

On September 6, 2013, the Company closed a registered direct offering of \$3,451,500 (approximately \$3.2 million net, after deducting commissions and other expenses) of shares of common stock to certain institutional investors. In total, the Company sold 2.95 million shares of common stock at a price of \$1.17 per share.

Lucas plans to continue to focus a substantial portion of its capital expenditures in various known prolific and productive geological formations, including the Austin Chalk, Eagle Ford and Buda formations, primarily in Gonzales, Wilson, and Karnes counties south of the city of San Antonio, Texas and in the Eaglebine, Buda, and Glen Rose formations in Madison and Leon counties north of the city of Houston, Texas. Lucas expects capital expenditures to be greater than cash flow from operating activities for the 2014 fiscal year. To cover the anticipated shortfall, our business plan includes establishing a reserve-based line of credit, initiate bank or private borrowings, and/or issue equity or debt offerings similar to the above.

ITEM 3. QUANTITATIVE AND QUALITATIVE DISCLOSURES ABOUT MARKET RISK.

Market risk is the risk of loss arising from adverse changes in market rates and prices. We are exposed to risks related to increases in the prices of fuel and raw materials consumed in exploration, development and production. We do not engage in commodity price hedging activities.

ITEM 4. CONTROLS AND PROCEDURES.

Disclosure Controls and Procedures.

Disclosure controls and procedures (as defined in Rules 13a-15(e) and 15d-15(e) under the Securities Exchange Act of 1934 (the Exchange Act)) are designed to ensure that information required to be disclosed in reports filed or submitted under the Exchange Act is recorded, processed, summarized and reported within the time periods specified in Securities and Exchange Commission rules and forms and that such information is accumulated and communicated to management, including the Chief Executive Officer, to allow timely decisions regarding required disclosures. The Company's management, including the Chief Executive Officer and Principal Financial Officer, evaluated the effectiveness of the Company's disclosure controls and procedures as of the end of the period covered by this report. Based upon that evaluation, the Company's Chief Executive Officer and Principal Financial Officer concluded that the Company's disclosure controls and procedures were effective as of September 30, 2013.

Changes in Internal Control Over Financial Reporting

There have not been any changes in our internal control over financial reporting during the three months ended September 30, 2013 that have materially affected, or are reasonably likely to materially affect, our internal control over financial reporting.

PART II - OTHER INFORMATION

ITEM 1. LEGAL PROCEEDINGS.

For information regarding these and other legal matters, refer to Note 10 to the condensed consolidated financial statements contained in this Quarterly Report.

Lucas is periodically named in legal actions arising from normal business activities. Lucas evaluates the merits of these actions and, if it determines that an unfavorable outcome is probable and can be reasonably estimated, Lucas will establish the necessary reserves. Described below is information in regards to three proceedings which did not arise from Lucas's normal business activities and which Lucas believes are material to the Company:

The Company filed a lawsuit against the holder of the Company's 2,000 outstanding shares of Series A Convertible Preferred Stock in the District Court of Harris County, Texas, on May 9, 2013, seeking a declaratory judgment that the 2,000 shares of Series A Convertible Preferred Stock should be cancelled, injunctive relief prohibiting the holder from selling or transferring the Series A Convertible Preferred Stock, and attorney's fees. To date, both parties have reached an agreement for a joint dismissal.

On October 5, 2012, Knight Capital Americas LLC (as successor in interest to Knight Capital America, L.P. ("Knight")), filed suit against the Company in the Supreme Court of the State of New York, County of New York (Index No. 157012/2012). The Company previously engaged Knight as a broker/dealer in connection with a proposed fund raise. The suit alleged causes of actions for breach of contract, unjust enrichment, breach of implied covenants, tortious interference and seeks declaratory relief in connection with the Company allegedly failing to pay Knight fees in connection with its right of first refusal to provide broker/dealer services in connection with a subsequently completed fund raise undertaken by the Company. On September 18, 2013, Lucas entered into a Settlement and Release Agreement with Knight, pursuant to which the parties agreed to settle the litigation, and Lucas agreed to pay Knight an aggregate of \$220,000 as follows:

- ? \$120,000 on or before the later of September 16, 2013 or two days after the Settlement and Release Agreement was executed by the parties (which has been paid to date);
- ? \$33,333 on or before October 15, 2013 (which has been paid to date);
- ? \$33,333 on or before November 15, 2013; and
- ? \$33,333 on or before December 15, 2013,

provided that if Lucas fails to pay any amounts when due, Knight is able to file an agreed judgment with the court stipulating that Lucas agrees that the amount owed pursuant to the schedule above is immediately due and payable.

ITEM 1A. RISK FACTORS.

There have been no material changes from the risk factors previously disclosed in the Company's Annual Report on Form 10-K for the year ended March 31, 2013 (the "2013 Annual Report"), as filed with the SEC on June 28, 2013. The information in such risk factors, in addition to the other information set forth in this quarterly report, could materially affect our business, financial condition or results of operations. Additional risks and uncertainties not currently known to us or that we deem to be immaterial could also materially adversely affect our business, financial condition or results of operations.

ITEM 2. UNREGISTERED SALES OF EQUITY SECURITIES AND USE OF PROCEEDS.

On July 17, 2013, Meson Capital Partners LP ("Meson LP"), purchased 185,185 restricted shares of our common stock in a private transaction for consideration of \$250,000 or \$1.35 per share (\$0.01 above the closing sales price of our common stock on July 17, 2013). Securities owned directly by Meson LP, are owned indirectly by Meson Capital Partners LLC ("Meson LLC") by virtue of it being the general partner of Meson LP and by Ryan J. Morris, a Director of the Company, by virtue of his position as managing member of Meson LLC.

We claim an exemption from registration pursuant to Section 4(2) and Rule 506 of the Securities Act of 1933, as amended since the forging issuance did not involve a public offering, the recipient took the securities for investment and not resale, the Company took appropriate measures to restrict transfer, and the recipient (a) was an “accredited” investor; and (b) was beneficially owned by a director of the Company.

In connection with the Loan (described and defined above under “Liquidity and Capital Resources” – “Financing”), the Company agreed to grant the administrator of the Loan a warrant to purchase up to 279,851 shares of the Company’s common stock at an exercise price of \$1.35 per share.

We claim an exemption from registration pursuant to Section 4(2) and Rule 506 of the Securities Act of 1933, as amended since the foregoing grant did not involve a public offering, the recipient took the securities for investment and not resale, the Company took appropriate measures to restrict transfer, and the recipient was an “accredited” investor.

ITEM 5. OTHER INFORMATION.

On July 17, 2013, Meson Capital Partners LP (“Meson LP”), purchased 185,185 restricted shares of our common stock in a private transaction for consideration of \$250,000 or \$1.35 per share (\$0.01 above the closing sales price of our common stock on July 17, 2013). Securities owned directly by Meson LP, are owned indirectly by Meson Capital Partners LLC (“Meson LLC”) by virtue of it being the general partner of Meson LP and by Ryan J. Morris, a Director of the Company, by virtue of his position as managing member of Meson LLC.

On September 18, 2013, Lucas entered into a Settlement and Release Agreement with Knight, pursuant to which the parties agreed to settle the litigation, and Lucas agreed to pay Knight an aggregate of \$220,000 as follows:

- ? \$120,000 on or before the later of September 16, 2013 or two days after the Settlement and Release Agreement was executed by the parties (which has been paid to date);

- ? \$33,333 on or before November 15, 2013; and
- ? \$33,333 on or before December 15, 2013,

provided that if Lucas fails to pay any amounts when due, Knight is able to file an agreed judgment with the court stipulating that Lucas agrees that the amount owed pursuant to the schedule above is immediately due and payable.

Additionally, the parties agreed to mutually release each other and each other’s affiliates and assigns from all claims, causes of actions, damages and liabilities relating to any events which occurred prior to the effective date, whether as a result of the purchase of the properties, the note or otherwise, and to further indemnify each other from any claims associated therewith. Pursuant to the Settlement and Release Agreement, Knight will dismiss the lawsuit with prejudice after the final payment from Lucas is made.

Effective November 11, 2013, Ken Daraie was appointed as the Chairman of the Board of Directors replacing Ryan J. Morris, who had served in that capacity since December 20, 2012.

i) Subscriber is an “**Accredited Investor**” as such term is defined under Rule 501 of the Securities Act of 1933, as amended (the “**Securities Act**” or the “**1933 Act**”) and has such knowledge and experience in financial and business matters that Subscriber is capable of evaluating the merits and risks of an investment in the Company and the suitability of the Securities as an investment for Subscriber;

ii) The Subscriber is acquiring the Securities for its own account for long-term investment and not with a view toward resale, fractionalization or division, or distribution thereof, and it does not presently have any reason to anticipate any change in its circumstances, financial or otherwise, or particular occasion or event which would necessitate or require its sale or distribution of the Securities. No one other than the Subscriber has any beneficial interest in said securities. The Subscriber is purchasing the Securities for its account for the purpose of investment and not with a view to, or for sale in connection with, any distribution thereof;

- iii) Subscriber is able to bear the economic risk of the investment in the Securities and Subscriber has sufficient net worth to sustain a loss of Subscriber's entire investment in the Company without economic hardship if such a loss should occur;
- iv) The undersigned recognizes that the investment herein is a speculative venture and that the total amount of funds tendered to purchase Securities is placed at the risk of the business and may be completely lost. The purchase of Securities as an investment involves special risks;
- v) Subscriber acknowledges and is aware of the following:
- (1) There are substantial restrictions on the transferability of the Securities; the Securities will not be, and investors in the Company have no right to require that the Securities be registered under the 1933 Act; there may not be any public market for the Securities; Subscriber may not be able to use the provisions of Rule 144 of the 1933 Act with respect to the resale of the Securities; and accordingly, Subscriber may have to hold the Securities indefinitely and it may not be possible for Subscriber to liquidate Subscriber's investment in the Company. Subscriber agrees that the Securities shall not be sold, transferred, pledged or hypothecated unless such sale is exempt from registration under the 1933 Act. - vi) The Subscriber has carefully considered and has, to the extent it believes such discussion is necessary, discussed with its professional, legal, tax and financial advisors, the suitability of an investment in the Securities for its particular tax and financial situation and that the Subscriber and its advisers, if such advisors were deemed necessary, have determined that the Securities are a suitable investment for it;
- vii) The Subscriber confirms and certifies that:
- (a) The Subscription hereunder is irrevocable by Subscriber, except as required by law, Subscriber is not entitled to cancel, terminate or revoke this Agreement or any agreements of Subscriber hereunder. If Subscriber is more than one person, the obligations of Subscriber hereunder shall be joint and several and the agreements, representations, warranties and acknowledgments herein contained shall be deemed to be made by and be binding upon each such person and his or her heirs, executors, administrators, successors, legal representatives and permitted assigns.

- (b) No federal or state agency has made any findings or determination as to the fairness of the terms of this Offering for investment purposes; or any recommendations or endorsements of the Securities.
- (c) The Offering is intended to be exempt from registration under the Securities Act by virtue of Section 4(2) of the Securities Act and the provisions of Rule 506 of Regulation D and/or Regulation S thereunder, which is in part dependent upon the truth, completeness and accuracy of the statements made by the Subscriber herein.
- (d) It is understood that in order not to jeopardize the Offering's exempt status under Section 4(2) of the Securities Act and Regulation D or Regulation S, any transferee may, at a minimum, be required to fulfill the Subscriber suitability requirements thereunder.
- (e) No person or entity acting on behalf, or under the authority, of Subscriber is or will be entitled to any broker's, finder's or similar fee or commission in connection with this subscription.

Notwithstanding the foregoing, however, no representation, warranty, acknowledgment or agreement made herein by Subscriber shall in any manner be deemed to constitute a waiver of any rights granted to Subscriber under federal or state securities laws. The representations and warranties set forth herein shall survive the date upon which the Subscriber is admitted as a shareholder of the Company.
