PROSPECTUS SUPPLEMENT SUMMARY

General

Lucas Energy, Inc. (“we,” “us,” “Lucas”, “Lucas Energy”, the “Company” and words of similar meaning) is an independent oil and gas company based in Houston, Texas with approximately 19,200 gross acres (14,200 acres net) of oil and gas leases in South Texas primarily in Gonzales and Wilson Counties. We hold oil and gas interests in the Austin Chalk formation (proved and producing), Buda formation (proved and producing), and Eagle Ford Shale formation (proved undeveloped). We focus on building, revitalizing and developing a portfolio of oil and gas properties by acquiring what we believe are undervalued and underperforming oil and gas assets for which we believe we can increase production.

We operate forty nine (49) producing wells that produced an average of 194 gross and 114 net barrels of oil per day (“BOPD”) during the six months ended September 30, 2010. In total, we hold interests in fifty two producing, shut-in, and previously plugged and abandoned wellbores. We operate all of our oil and gas properties with the exception of one property located in Sabine County, Texas

Acquisitions of oil and gas properties are a core part of our growth strategy. We focus on acquiring shut-in wells that we believe have been overlooked by other companies and have, in our assessment, a high probability of additional recovery of reserves through our revitalization process or through the drilling of new laterals. Specifically, we seek out opportunities to acquire wells located in mature oil fields that we believe are underdeveloped and have the potential to recover significant oil reserves that are still in place. The term underdeveloped is an industry term meaning that the reservoirs of interest have either not been fully exploited through drilling, or the reserves in current well bores, whether active or plugged and abandoned, have not been fully recovered by primary recovery techniques. In many instances the fields that we target have lost some or all of the reservoir pressure required to drive the oil through the overlying rock and sand and into the well bores of the producing wells, or they have experienced mechanical problems.

Most of the acquisition prospects that we conduct initial screening on are sourced directly by our senior management or specialized third-party consultants with local area knowledge. Prospects that are of further interest to us after we complete of our initial review, are evaluated for technical and economic viability. We target well acquisitions that we estimate: (a) have a good opportunity and the appropriate acreage to drill additional laterals; (b) payback period of less than 12 months; and (c) projected internal rate of return on capital invested is accretive to earnings.

Our revitalization process is directed toward bringing wells back into production or enhancing production through ordinary practices used in the oil and gas industry. Our revitalization procedures used on acquired wells include the installation of new or good used equipment on the well; cleaning out the well with open ended tubing, tubing with a bit, or tubing with a mule shoe; treating the well with acid, soapy water, or other proprietary chemicals sourced from third parties; re-entry of a plugged and abandoned well; and drilling of a new lateral extension on an existing well. Our well revitalization program enables us to generate short-term cash and to hold leases for additional future development. Additionally we have conducted reservoir engineering on a program to drill new laterals from existing well-bores or offset locations that we have already leased. The purpose of these laterals are to provide more aerial access to the formation in order to increase the flow rate and to recover additional oil and gas reserves not recoverable from the existing vertical (straight) holes.

Our primary focus is to grow our portfolio of oil and gas properties. Our revenues are derived from the sale of the oil that we produce from our wells. We derive ancillary revenue from associated natural gas produced in connection with production from our oil wells. Our assets deplete as our oil and gas reserves are produced, and our business is capital intensive requiring substantial funding to make property acquisitions, to drill and complete wells and to conduct well revitalizations in order for us to maintain and increase our oil and gas reserve base. Our primary recurring costs are expenses associated with lease operations and with operating the Company.

Our principal office is located at 3555 Timmons Lane, Suite 1550, Houston, Texas 77027. Our phone number is (713) 528-1881. The Company is authorized to transact business in the state of Texas, and is a bonded operator with the Texas Railroad Commission.

Research and Development

We have not allocated funds for conducting research and development activities. We do not anticipate allocating funds for research and development in the immediate future.

Marketing of Crude Oil and Natural Gas

We operate exclusively in the United States oil and gas industry. Crude oil production sales are made directly to GulfMark Energy, Inc. and Texon LP. Our sales are made on a month-to-month basis, and title transfer occurs at an individual property's tank battery when loaded onto the oil purchaser's truck. Crude oil prices realized from production sales are tied to published West Texas Intermediate crude prices.

Our natural gas production is associated gas resulting from crude oil production and is nominal in quantity. Natural gas is sold to Houston Pipeline Company on a month-to-month basis.

Although we believe that we are not dependent upon any one customer, our marketing arrangement with GulfMark accounted for approximately 87% and 88% of our revenue for the years ended March 31, 2010 and 2009, respectively. In the event that GulfMark is unwilling or unable to purchase our crude oil production, we believe alternative purchasers are readily available and sales would occur at competitive market prices.

FORWARD-LOOKING STATEMENTS

Certain information included in this prospectus supplement, the prospectus, other reports filed by us under the Securities Exchange Act of 1934, as amended (the "Exchange Act") and any other written or oral statement by or on our behalf contain forward-looking statements and information that are based on management's beliefs, expectations and conclusions, drawn from certain assumptions and information currently available. The Private Securities Litigation Act of 1995 encourages the disclosure of forward-looking information by management by providing a safe harbor for such information. This discussion includes "forward-looking statements" within the meaning of Section 27A of the Securities Act of 1933, as amended (the "Securities Act") and Section 21E of the Exchange Act. Although we believe that the expectations and conclusions reflected in such forward-looking statements are reasonable, such forward-looking statements are based on numerous assumptions (some of which may prove to be incorrect) and are subject to risks and uncertainties, which could cause the actual results to differ materially from our expectations. In addition to any assumptions and other factors referred to specifically in connection with forward-looking statements, factors that could cause our actual results to differ materially from those contemplated in any forward-looking statements include, among others, our ability to continue as a going concern, our limited history of operations, our need for additional external funding, volatility in market prices for oil and natural gas, liabilities inherent in oil and natural gas operations, uncertainties associated with estimating oil and natural gas reserves, competition for, among other things, capital, acquisitions of reserves, undeveloped lands and skilled personnel, incorrect assessments of the value of acquisitions, geological, technical, drilling and processing problems, fluctuations in foreign exchange or interest rates and stock market volatility, and other factors identified and described in "Risk Factors" and other sections of this prospectus supplement and in the other documents we have filed with the SEC and that are incorporated herein by reference, including "Business," "Risk Factors," "Management's Discussion and Analysis of Financial Condition and Results of Operations" and elsewhere in our annual report on Form 10-K for the fiscal year ended March 31, 2010, as amended, in "Risk Factors" in our quarterly reports on Form 10-Q for the quarters ended June 30, 2010, September 30, 2010 and December 31, 2009, and that may be discussed from time to time in other reports filed with the SEC subsequent to this prospectus supplement. Readers are cautioned not to place undue reliance on any forward-looking statements made by or on behalf of us. Each of the risks described in these sections and documents could materially and adversely affect our business, financial condition, results of operations and prospects, and could result in a partial or complete loss of your investment.

DESCRIPTION OF SECURITIES WE ARE OFFERING

Pursuant to this prospectus supplement and the accompanying prospectus, we are offering for sale an aggregate of 2,510,506 units pursuant to a Securities Purchase Agreement (the "Purchase Agreement") to certain institutional investors (the "Investors"), each consisting of (a) one share of common stock; (b) one Series B Warrant to purchase one share of common stock at an exercise price of \$2.86 per share (the "Series B Warrants"); and (c) one Series C Warrant to purchase one share of common stock at an exercise price of \$2.62 per share (the "Series C Warrants" and together with the Series B Warrants, the "Warrants", and collectively with the shares of common stock, the "Units"). Each Unit had a purchase price of \$2.38, and the Company will receive an aggregate of \$5,975,004 in gross funding in the transaction (the "Offering").

An investor in the Offering included Hall Phoenix/Inwood, an affiliate of Hall Phoenix Energy, LLC, who is a joint venture partner with the Company in the Eagle Ford trend in South Texas.

The Purchase Agreement included a provision whereby the Company was prohibited from selling shares of common stock to the Investors representing more than 19.9% of the Company's common stock on the Closing Date.

Pursuant to the Purchase Agreement, the Company agreed that until the first anniversary of the Closing Date, the Company would not undertake any of the following, without the prior written consent of all of the Investors (as described in greater detail in the Purchase Agreement): (A), directly or indirectly, file any registration statement with the SEC (other than the Registration Statements in connection with the Offering), (B) directly or indirectly, offer, sell, grant any option to purchase, or otherwise dispose of (or announce any offer, sale, grant or any option to purchase or other disposition of) any of its equity securities, including without limitation any debt, preferred stock or other instrument or security (a "Subsequent Placement") or (C) be party to any solicitations or negotiations with regard to the foregoing. Additionally, the Company agreed that until the second anniversary of the Closing Date, the Company would not, directly or indirectly, effect any Subsequent Placement unless the Company first provides the Investors notice of such Subsequent Placement and provides such Investors an opportunity to purchase up to 25% of the securities offered in such Subsequent Placement pursuant to the terms and conditions described in greater detail in the Purchase Agreement.

However, the above requirements do not apply to the Company's issuance or grant of any common stock issued or issuable: (i) in connection with any employee benefit plan approved by the Board, subject to a maximum of 150,000 shares to be issued to consultants in any calendar year; (ii) upon exercise of the Warrants; (iii) upon exercise of any options or convertible securities which are outstanding on the day immediately preceding the Closing Date; and (iv) in connection with mergers, acquisitions, strategic business transactions or joint ventures with a strategic partner who is not in the business of making financial investments, in each case with non-affiliated third parties and otherwise on an arm's-length basis, the primary purpose of which is not to raise additional capital (collectively (i) through (iv), "Excluded Securities"); provided that any shares issued or issuable in connection with any transaction contemplated by this clause (iv) that is either primarily (A) attributable to capital raising for the Company (other than nominal amounts of capital) or (B) to raise capital for the Company, directly or indirectly, in connection with any transaction contemplated by this clause (iv), including, without limitation, securities issued in one or more related transactions or that result in similar economic consequences, shall not be deemed to be Excluded Securities.

The Company previously engaged Tripoint Global Equities as Placement Agent in connection with the sale of securities in the Offering and agreed to pay the Agent a cash fee of 6% of the offering proceeds, \$358,500, and to grant the Agent warrants to purchase up to 150,630 shares of common stock (equal to 2% of the total shares of common stock issuable in connection with the Offering) which warrants will have three year terms and an exercise price of \$2.98 per share (the "Agent Warrants"). The Company also agreed to pay fees to counsel for the lead Investor in connection with the Offering for due diligence and legal fees, which fees are not to exceed \$35,000.

As a result, assuming all 2,510,506 of the Units offered pursuant to this prospectus supplement are issued and sold by us, we will pay the placement agent a cash fee equal to \$358,500. In addition the placement agent will receive warrants equal to 2% of the shares of common stock underlying the Units purchased by the investors, including the shares of common stock underlying the warrants contained in the Units. Assuming all 2,510,506 of the Units offered pursuant to this prospectus supplement are issued and sold by us, we will issue 50,210 warrants to the placement agent. To the extent that the Series B and Series C warrants are exercised by the investors, the placement agent will receive an additional set of warrants for each up to a maximum of 150,630 shares.

The common stock and the Warrants will be issued separately but will be purchased together in the Offering. This prospectus supplement also relates to the Offering of shares of common stock upon the exercise, if any, of the Warrants including the Agent warrants granted in the Offering.

Common Stock

The material terms and provisions of our common stock are described in the sections entitled "Description of Capital Stock" and "Common Stock" in the prospectus attached hereto. The shares of common stock issued in the Offering will be, when issued and paid for in accordance with the Purchase Agreement, duly and validly authorized, issued and fully paid and non-assessable.

Warrants

The material terms and provisions of the warrants being offered pursuant to this prospectus supplement and the accompanying prospectus are summarized below. This summary is subject to, and qualified in its entirety by, the form of Warrants, which will be provided to the investors in the Offering and was filed as an exhibit to a Current Report on Form 8-K with the SEC on December 27, 2010.

Each Series B Warrant has an exercise price of \$2.86. The Series B Warrants are exercisable at any time for five years following the 185th day following the Closing Date.

Each Series C Warrant has an exercise price of \$2.62 per share. The Series C Warrants are exercisable for a 10 trading day period ending on the 216th day following the Closing Date, provided that the Company has the right to force the Investors to exercise the Series C Warrants if (a) the VWAP of the Company's common stock on the NYSE Amex exceeds \$3.28 during the 11th through the 20th trading days immediately prior to the 216th day following the Closing Date; or (b) if on the 216th day following the Closing Date, the exercise price of \$2.62 per share is less than the lower of (x) the VWAP for the ten days immediately preceding such date, and (y) the closing bid price on such date, subject in each case to the Company meeting certain requirements and maintaining certain conditions as set forth in such Series C Warrant. The Class C Warrants expire automatically if not exercised by the 216th day following the Closing Date (unless such date falls on a holiday or weekend, in which case the next non-holiday or weekend date).

The Warrants have cashless exercise rights if the registration statement pursuant to which the Warrants were issued is not effective and available for use at the time of any proposed exercise. The Warrants also include a provision whereby the Investors are not eligible to exercise any portion of the Warrants that would result in them becoming a beneficial owner of more than 9.99% of the Company's common stock.

The Agent warrants will have a term of 3 years and an exercise price of \$2.98 per share and will not be exercisable for 185 days following the closing of the Offering. In addition, the Placement Agent has agreed to not trade the Company's securities during the "measurement period", defined in the Series C Warrants' forced exercise provisions. The Placement Agent warrants will be deemed compensation by FINRA and therefore will be subject to a minimum 180 day lock-up pursuant to Rule 5110(g)(1) of the FINRA Conduct Rules.

PLAN OF DISTRIBUTION

As disclosed in our Current Report on Form 8-K, filed with the SEC on December 27, 2010, pursuant to a letter agreement, we engaged TriPoint Global Equities, LLC ("Tripoint" or the "Placement Agent") as our exclusive placement agent on November 2, 2010 for a period of 90 days (the "Placement Agent Agreement").

In connection with the sale of the common shares and warrants we are offering by this prospectus supplement on our behalf, TriPoint will be acting on a best efforts basis for the period of its appointment. TriPoint is not purchasing or selling any units, nor are they required to arrange for the purchase and sale of any specific number or dollar amount of Units. We have agreed to provide indemnification to Tripoint against certain civil liabilities, including liabilities under the Securities Act.

The Placement Agent would be required to comply with the requirements of the Securities Act and the Exchange Act, including, without limitation, Rule 10b5 and Regulation M under the Exchange Act. These rules and regulations may limit the timing of purchases and sales of shares of common stock and warrants to purchase shares of common stock by the placement agent. Under these rules and regulations, the Placement Agent may not (i) engage in any stabilization activity in connection with our securities; and (ii) bid for or purchase any of our securities or attempt to induce any person to purchase any of our securities, other than as permitted under the Exchange Act, until they have completed their participation in the distribution.

We have entered into Securities Purchase Agreements directly with the investors in connection with this offering. Under the terms of the letter agreement with the Placement Agent and the form of Securities Purchase Agreements we made certain representations, warranties and covenants, including, relating to the absence of a stop order suspending the effectiveness of the registration statement of which this prospectus supplement and the accompanying base prospectus are a part, the absence of any material adverse change in our business, and compliance with state securities laws.

On the closing date, which is expected to occur on December 30, 2010 settlement for sales of common shares will occur through escrow pursuant to an escrow agreement. On such closing date, the following will occur:

- ? we will receive funds in the amount of the aggregate purchase price of the securities being sold by us on such closing date;
- ? we will deliver shares of common stock being sold on such closing date in book-entry form;
- ? we will deliver Series B and C Warrants to the investors evidencing the Warrants sold in the offering; and
- ? we will pay TriPoint a placement agent fee in accordance with the terms of the engagement agreement and deliver TriPoint a warrant agreement evidencing the Placement Agent warrants.

The offering of common shares pursuant to the securities purchase agreement will terminate at the release of escrow on or about December 30, 2010. Upon completion of a registered direct offering the Placement Agent Agreement shall be extended for 6 months from the closing date of that transaction. The placement agent agreement may be terminated upon ninety (90) days prior written notice by either party.

We agreed to pay TriPoint a cash fee of 6% and a warrant fee of 2% in connection with a registered direct offering. We have also agreed to reimburse TriPoint for reasonable out of pocket expenses, including due diligence and related travel expenses.

As a result, assuming all 2,510,506 of the Units offered pursuant to this prospectus supplement are issued and sold by us, we will pay the placement agent a cash fee equal to \$358,500. In addition the placement agent will receive warrants equal to 2% of the shares of common stock underlying the Units purchased by the investors, including the shares of common stock underlying the warrants contained in the Units. Assuming all 2,510,506 of the Units offered pursuant to this prospectus supplement are issued and sold by us, we will issue 50,210 warrants to the placement agent. To the extent that the Series B and Series C warrants are exercised by the investors, the placement agent will receive an additional set of warrants for each up to a maximum of 150,630 shares. The Agent warrants will have a term of 3 years and an exercise price of \$2.98 per share and will not be exercisable for 185 days from the closing of the Offering. In addition, the Placement Agent has agreed to not trade the Company's securities during the "measurement period", defined in the Series C Warrants' forced exercise provisions. The Agent warrants will be deemed compensation by FINRA and therefore will be subject to a minimum 180 day lock-up pursuant to Rule 5110(g)(1) of the FINRA Conduct Rules.

There is no minimum offering amount required as a condition to closing in this offering. Accordingly, we may sell substantially fewer than 2,510,506 Units, in which case our net proceeds would be substantially reduced and the total fee payable to the placement agent may be substantially less than the maximum total set forth above.

The Placement Agent has informed us that it will not engage in over-allotment, stabilizing transactions or syndicate covering transactions in connection with this offering.

The Placement Agent may, from time to time, engage in transactions with and perform services for us in the ordinary course of its business.

Our common stock currently is traded on the NYSE Amex under the symbol "LEI" The transfer agent and registrar for our common stock is ClearTrust, LLC.

USE OF PROCEEDS

Lucas plans to use the net proceeds of approximately \$5.6 million of the offering to advance its Eagle Ford drilling activity in its Gonzales and Wilson County properties in South Texas and for general working capital purposes.

DILUTION

If you invest in our common stock, your ownership interest will be diluted to the extent of the difference between the price you paid per share of common stock in this Offering and the net tangible book value per share of our common stock after this Offering. Net tangible book value per share represents total tangible assets less total liabilities, divided by the number of shares of common stock outstanding. Dilution in net tangible book value per share represents the difference between the amount per share paid by purchasers of shares in this Offering and the net tangible book value per share of common stock immediately after the closing of this Offering.

On an as adjusted basis prior to this Offering (giving effect to the recent issuances), our pro forma net tangible book value as of September 30, 2010 would have been approximately \$17.82 million, or approximately \$1.30 per share of common stock. On an as adjusted basis after this Offering (giving effect to the recent issuances and to the sale of the shares in this Offering at the offering price of \$2.38 per share, after deducting the estimated offering expenses payable by us), our pro forma net tangible book value as of September 30, 2010 would have been approximately \$23.43 million, or \$1.71 per share of common stock. This represents an immediate increase in net tangible book value of \$0.41 per share to existing stockholders and an immediate dilution of \$0.67 per share to new investors purchasing shares in this Offering at the offering price

Public offering price per share:	\$	2.38
Net tangible book value per share as of September 30, 2010	\$	1.30
Increase in net tangible book value per share attributable to this offering:	\$	0.41
Pro forma net tangible book value per share as of September 30, 2010 after giving effect to this offering:	\$	1.71
Dilution per share to new investors in this offering:	\$	0.67

The foregoing table is based 13,710,000 shares of our common stock outstanding as of September 30, 2010.

To the extent that any of our outstanding options or warrants are exercised, we grant additional options under our stock option plans or issue additional warrants, or we issue additional shares of common stock in the future, there may be further dilution to new investors.

DIVIDEND POLICY

We have never declared or paid any cash dividends with respect to our common stock. We currently intend to retain any future earnings to fund the development and growth of our business. We do not anticipate paying cash dividends on our common stock in the foreseeable future.
